

Peux-tu aider cette femelle de Monarque de Tahiti à regagner son nid en évitant tous les dangers ?

The maze is a complex network of black lines forming a path. The start point is a black bird (Monarch of Tahiti) at the top center. The goal is a bird's nest with an egg at the bottom left. The path must avoid several dangers: a cat at the top left, a mouse in the middle right, ants at the bottom right, and an eagle at the bottom center.
